

BURNING BLUE RAIN

Burning Blue Rain is the creative partnership of lifelong friends Louis Tessman Stanoch and Oliver Osland – two young musicians with old souls. Blending the raw emotion of blues with the spirit of funky rock-n-roll, their sound pulses with grit, heart, and chemistry.

Since forming in 2022, Burning Blue Rain has built a reputation for poignant songwriting, immersive performances, and total creative control – from writing and arranging to engineering and producing their own music. Their 2025 EP release show at the iconic 7th Street Entry was a breakout moment, packing the venue and solidifying their place in the Twin Cities music scene.

With steady residencies, a growing catalog of original songs, and a bond forged over years of friendship, Burning Blue Rain is charting their own course – where vintage soul meets modern groove.
